Gardner Glass Products, Inc. warrants their mirrors against deterioration or contamination resulting from any type of penetration through the back for a period of five years. This is a conditional guarantee and the warranty does not cover deterioration caused by contaminants which attack the silver layer at an exposed edge. The mirrors must have been installed under industry-accepted glazing processes and using commercially acceptable glazing ingredients.

In the event of failure, Gardner Glass Products will replace the mirror only and no compensation will be offered for a loss of labor or any other loss incurred in the installation. It will be the responsibility of Gardner Glass Products through its own tests to determine the cause of failure for the purpose of this warranty. Unusual or exotic installations are not covered by this warranty.

Gardner has been manufacturing mirrors for many years. The employees of Gardner Glass Products have proven over time their ability to produce quality products. Our glass is supplied by primary glass manufacturers in compliance with ASTM C1036 specifications and selected for mirrors. The mirrors are manufactured in accordance with ASTM C1503.

This warranty is a statement of our commitment to provide the best quality in the mirror industry to Gardner Glass Products' customers.
